

# HygieneFOG

Vehicle Fogging Disinfectant & Deodorant

**HygieneFOG** is a natural non-flammable disinfectant deodorant made by Persimmon Extracts NS50 and Organic Amine Salt, is active against germs.

**HygieneFOG** kills off the bacteria by causing the proteins to become damaged and bacterial cell wall to rupture. It demonstrated immediate bactericidal activity through and inhibit bacterial growth for 24 hours, eliminates 99.9% of bacteria including staphylococcus aureus and Escherichia coli.

**HygieneFOG** breaks down odorous molecules to removes tough unpleasant smells while still being gentle on vehicle interior surfaces and fabrics.

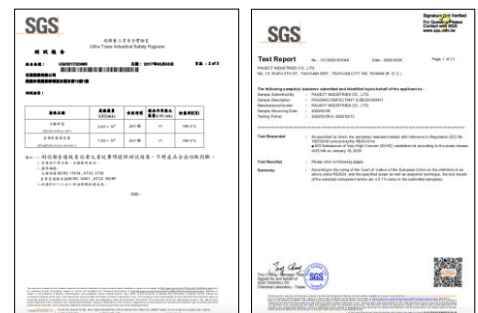

Apply **HygieneFOG** using a fog machine allows minimum amounts of disinfectant solution effectively spread out in nano particles and covering the entire area in 20-35 seconds for disinfection, including all bacteria lurking surfaces and corners.

**HygieneFOG** is manufactured in Taiwan utilizes ingredients imported from Japan and has been approved by European REACH Regulation (SVHC) for non-toxic substance testing and antimicrobial effectiveness testing through SGS inspections.

**HygieneFOG** is safe for the environment. It decomposes under aerobic or anaerobic conditions. Does not cause ecological problems.

• **Compositions and Information on Ingredients:**

Ingredients	Content(wt%)
Persimmon Extracts	20~29
Nebulizer	20~28
Essence Oil Mixtures	1~5
Bactericide	2~5
De-Ionized Water	40~50

- **Appearance:** Transparent liquid
- **Smell:** Essence Smells
- **pH Scale:** 7
- **Flammability (solid/gas):** Non-Combustible
- **Shelf life:** 2 years
